

Custom Product Solutions

Custom Product Solutions

Custom Products is a value-added service for customers seeking to streamline their production, assembly, and receiving processes by purchasing assembled, kitted, or modified products. Steiner's Custom Products Group offers sub-assemblies, wiring harnesses, part modifications, simple kitting, and more to support your

production process. Consider the cost and time savings from reducing physical handling, ordering costs, labor hours, and storage space needed for inventorying components. Let Steiner assist you by focusing on your company's core competencies.

KITTING:

- Completed din rail assemblies
- Multiple part consolidation
- Custom electrical whips
- Sub-assemblies
- Wiring harnesses
- Pre-wired electrical components
- Cut-to-length strut, conduit, rod & din rails
- 80/20 extruded aluminum framing systems

MODIFICATIONS:

- Fully customized enclosures
- Anaconda cut to length
- Modified union fittings
- Part modifications
- Combination starter modification

BENEFITS:

- Reduced labor costs
- Simplified ordering process
- Faster turn-around time
- Increased production levels
- Reduction of component inventory
- One stop shopping
