

## Visual™ Installer Mobile App

Go mobile with your installations!

The Visual Installer mobile app streamlines lighting control installation and as-built workflows. Using project floor plans and risers that are made available in the app, users scan lighting control devices to capture real-time installation status, exact device locations, and design changes. In addition, the

Visual Installer app also serves as a real-time collaboration tool for other project stakeholders, such as construction managers, project owners, and installers. The Visual Installer mobile app gives you the ability to provide quality as-builts while saving time and related costs on your projects.

## Features:

- **Cloud storage** – Scan a project QR code to download, view, notate, and share floor plans and takeoffs.
- **Capture details easily** – Scan control devices' ID stickers to capture device data and track installation status.
- **Integrated mark-ups** – Mark which devices are installed, move and update product locations, and add text or picture notes for clarification.
- **Pairing and programming** – Basic programming to check wiring and functionality is available for nLight® AIR devices.
- **Real-time collaboration** – Retrieve, view, and share centrally maintained project information and status in real time.
- **Paperless process** – No need to export, email, or create lengthy paper trails.
- **Quality as-builts** – Deliver precise, annotated, and easily accessible as-builts, providing higher value to project owners.
- **Security** – Data is protected by cybersecurity best practices, such as role-based management, strong encryption, and modern transport protocols.

## Instructions:

1

### DOWNLOAD THE APP

2

**IMPORT A PROJECT:** Add a project by scanning your title block's QR code or your submittal cover page.

3

**ASSIGN DEVICES:** Assign a unique ID to a device by scanning its ID sticker.

nLight® Wired devices have an 8-digit ID nLight Wireless (AIR) devices have a 4-digit ID

4

**ADD NOTES:** Select a device or room to leave a text or picture note.

5

### PAIRING AND PROGRAMMING:

Rooms with nLight AIR devices can be paired together and programmed once all devices have been assigned.

- Press Program
- Select a template
- Follow the on-screen directions (wake devices, walk closer to a device, etc.)
- Programming will complete, and helpful notes will be added to any product location if programming is not successful
- Wireless devices can be tested once programming completes

Wired devices do not require pairing and should be functional once connected and powered.

# STEINER

**Steiner Electric – Who we are** Steiner is a full-line electrical and metalworking distributor that serves the commercial construction, industrial and OEM markets in the greater Chicago area. We pride ourselves on having in-house experts and access to our vendor’s experts to help with innovation, process improvement and machine performance.

We have developed extensive digital tools that help our customers to easily connect with our personnel and products in order to get information and deliveries quickly and easily. Our customer portal is designed to help get answers and tasks completed quickly. We believe that our digital experience is just as important as interacting with us in-person. Our delivery solutions are focused on improving a customer’s efficiency when receiving material. We have solutions that deliver at specific times or provide material based on the needs of the project.

## **Commercial Construction**

Servicing the electrical contractors and building maintenance personnel.

## **Industrial End User**

Servicing steel mills, metal shaping and forming, manufacturing plants, food processing, industrial and commercial warehousing, data-centers.

## **OEM**

Helping machine builders innovate and automate packaging, material handling, manufacturing and assembly.

### The Power of Expertise

Access local and global product and application experts to innovate and improve business outcomes.

### The Power To Connect

Access information on products, order status, sales personnel and more in an instant to meet the speed of business.

### The Power to Deliver

Your material and solutions provided in a way that improves your efficiency.
